

Connection application decommissioning and meter removal

This form is to be completed for a decommissioning and meter removal service except for applications lodged through our electronic business system. If you have a current arrangement with a gas retailer for sale of gas to the Supply Address, you must ask the retailer to organise the service. If the annual consumption at the Supply Address is more than 10 terajoules per annum (large industrial customers), please contact Jemena.

Evoenergy has contracted Jemena Asset Management (Jemena) to provide network services including managing connections and related processes. Jemena will respond to your application on our behalf.

Please complete all sections of this form or mark "Not Applicable" as required. Payment must accompany the completed form.

The Applicant hereby applies for decommissioning and meter removal at the supply address and agrees that the service will be provided under the Terms and Conditions for Decommissioning & Meter Removal Services for premises connected to Evoenergy's gas distribution network (annual consumption less than ten (10) terajoules), published on our website on the date of the application ("terms and conditions").
